

I oppose any and all efforts to restrict satellite radio. I worked in local broadcast for 14 years and no longer listen to AM/FM radion. Because XM Radio is so much better, I do not listen to FM or AM Radio any longer. XM Radio beats AM/FM Radio hands down. If the NAB is worried about the impact of Satellite Radio, maybe it's time that the NAB re-examine their way of doing business.

Thank You

Jeff Mullins
